

CETOP-03, 4 WAY, 2 POSITION, SOLENOID VALVE WITH 350 BAR PRESSURE ON P – T – A – B

Characteristics

TYPE	Max pressure on P – A – B – T	Max flow	Weight
IC-1590	350 bar	30 l/min	1.8 Kg.

Description

Cetop-03 solenoid valve

Symbol

Dimensions

Electric characteristics

Nominal voltage	Supply voltage tolerance	Current	Duty factor	Power consumption	Protection degree
24 DC	± 10% Vnom	1.3 Amp	100 %	33 W	IP-65

Diagram

Installation rules

- Installation: no orientation restrictions
- Fluid to be used: hydraulic oil in compliance with DIN 51524, viscosity between 30 and 100 mm²/s (cSt) at 40°C
- Recommended filtration: 25μ
- Hydraulic fluid temperature: from -20° to +80°C
- Ambient temperature: from -20° to +40° C

Order code

IC-1590

CETOP-03 solenoid valve

Other voltages on request
